

Neville and More begins construction of brand new facility following 50% increase in sales

Neville and More, a leading supplier of bottles, jars, closures, dispensers and sprayers, has recently commenced the construction of a brand new development. It includes a purpose built distribution centre, assembly and dispenser dip tube cutting suite and product exhibition/sampling centre.

The new facility will also incorporate state-of-the-art photovoltaic solar panels to generate its own efficient source of energy which will satisfy all operating power requirements within the building.

The new distribution centre also provides extra capacity for over 1000 fully racked pallet spaces which enables safe, clean storage, traceability, safety stock and just-in-time delivery.

This will enable Neville and More to offer even more innovative, appealing, high quality bottles, jars, closures,

dispensers and sprayers direct from stock with flexible minimum order quantities.

The new exhibition centre will provide visitors with an unrivalled showcase for the very latest packaging product developments within the Healthcare, Personal Care, Food and Beverage and Household and Industrial market sectors.

The facility will be connected to Neville and More's existing warehousing and distribution centre by a fire proof tunnel which will provide two interconnected, but separate, operating units. This will facilitate continuity of supply and built in contingency arrangements in the event of an unexpected incident in one of the facilities and so satisfy a key disaster recovery requirement not only for Neville and More but for all industries supplied.

We believe that our success is based on the simple objective of providing high quality, appealing, innovative packaging direct from stock, backed up by an enthusiasm and determination to provide exceptional customer service.

Our objective of continuous improvement is supported by a focus and significant ongoing investment programme in the following five key areas:

- 1 Large Inventory**
 Having a large and varied inventory of innovative, appealing, high quality packaging means we can fulfil customer orders on a Just-In-Time delivery basis. **This improves cash flow and profitability for our clients.**
- 2 Unrivalled Flexibility**
 Our unrivalled flexibility means that we can **very quickly supply very low minimum order quantities** of just one carton of packaging from our extensive standard product range.
- 3 Unique Combination**
 Our unique combination of **packaging expertise and specialist logistics**, warehousing and inventory skills means our clients get high quality packaging delivered with the minimum possible lead times.
- 4 Global Knowledge and Sourcing Partnerships**
 Our global packaging knowledge and alliances with the very best manufacturing facilities throughout the world mean we can source the most appropriate packaging from the most competent partner in Europe, Asia and the Americas.
- 5 Total Solution Provider**
 In order to ensure optimum compatibility we provide a total solution which includes, but is not limited to:

 - Plastic bottles • Plastic jars
 - Glass bottles • Glass jars
 - Aluminium bottles • Aluminium jars
 - Plastic closures • Metal closures
 - Flip top caps • Tamper evident caps
 - Child resistant caps • Disc top caps
 - Fine mist sprayers • Lotion pumps
 - Trigger sprayers • Airless dispensing systems
 - Foamers
